

Raku Kilns

New to the UK market, these raku kilns are constructed from high temperature insulation brick with a stainless steel jacket. Use as both a raku kiln and an up draught gas kiln. Complete with a high quality, UK manufactured propane burner complete with regulator and flame failure device. Available in standard sizes of 74Lt and 100Lt, with the option of a 100mm. (4") extension ring. All raku kilns are CE marked and carry a 12 month guarantee.

As an optional extra we have available an extremely competitively priced raku kit containing a digital pyrometer, raku tongs, 1 pair of heat resistant gloves, bricks and kiln shelves.
